A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz.—pure triple-refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

THE ISSUE WITH THE SOUTHERN RAILWAY.

A conference was held in Birmingham, Ala., yesterday, between Governor B. B. Comer, Attorney General A. M. Garber and the several lawyers associated with the attorney general in the prosecution of the litigation arising from the enactment of the new railroad laws in Alabama. The purpose of the conference was to determine just what course the State will pursue in dealing with the Southern Railway, the license of which road was revoked last week because it had transferred a civil suit from the State courts to the federal court.

It is understood that wholesale arrests may follow yesterday's conference, in which event matters will be brought to a head. The statement is made that Governor Comer will, if necessary, use the militia to enforce the State's edict. It is also said that he may call an extra session of the legislature to take steps to place the Southern Railway into a receivership if the road persists in defying the State's authority. It is the view of the State authorities that the road has placed itself in the attitude of an outlaw or monopolist and must be dealt with as such.

No official statement was issued last night of the conclusions reached at the conference of Governor Comer, Attorney General Garber and the associate counsel employed by the State to assist in enforcing the laws affecting railroads as to the next steps in the case against the Southern Railway. The Governor and the Attorney General left for Montgomery yesterday afternoon, and a lengthy session was held by the special counsel last night, when the legal phases of the question were gone over.

While the Governor would make no statement, his advisers let it be known that the administration is determined to enforce the State laws at any cost.

After going into the evidence with regard to the duty of the Southern Railway to provide a depot at Gayleaville, the Alabama railroad commission yesterday refused to consider it further, on the ground that, as the company had no right to do a business in the State, the commission could not tell it to do or not to do anything. The whole matter went over.

Officials of the Southern Railway met in New York in conference behind closed doors yesterday to discuss the recent developments with regard to the application of the rate laws in several of the southern States. It was indicated that the conference would give especial consideration to the situation in Albama, where the company's license has been revoked.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidneys. Trouble of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys, as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative sold by E. S. Leadbeater & Sons.

INJUNCTION ISSUED.

Judge Vandeventer, in the United States Circuit Court at St. Paul, Minn., yesterday issued a temporary restraining order prohibiting the Secretary of State of Arkansas from forfeiting the right of the Chicago, Rock Island and Pacific Railroad to do business in that State.

The railroad is organized under the laws of the State of Iowa and has the right to bring suits against citizens of Arkansas in the federal courts and remove into the United States courts any suits begun in the State courts. The last Arkansas legislature passed an act providing any corporation which should commence a suit in the United States Court against any citizen of Arkansas, or which should remove any suit pending in a State court into the United States courts, should forfeit all rights to do business in the State and be subject to a penalty of $1,000,000 a day for each day it should thereafter continue to do business therein. The Secretary of State is obligated with the duty of enforcing the law.

Recently a citizen of Arkansas brought a suit in the State court against the Rock Island Road, and the railroad had it removed to the federal court. The Secretary of State thereupon began forfeiture proceedings, and they were stopped by the injunction issued at St. Paul yesterday. The injunction will hold matters in abeyance until the authority of the Secretary of State can be determined. Hearing will be had at Little Rock October 2.

I fully believe Electric Bitters will cure me permanently, for it has already stopped the liver and bladder complications which have troubled me for years." Guaranteed at E. S. THE STANDARD'S FINE

Government officials in Washington express the opinion, John D. Rockefeller to the contary, notwithstanding, that the Standard Oil Company of New Jersey will eventually be compelled to pay a fine of $29,240,000 imposed by Judge Landis, at Chicago, Saturday, on the Standard Oil Company of Indiana, which was convicted on more than 1 400 counts of violating the provisions of the Elkins anti-rebate act. The plan of campaign that the Standard will adopt in its efforts to prevent the enforcement of Judge Landis' order is not known in Washington, but it is pointed out that the defendant may appeal either to the Circuit Court of Appeals or to the United States Supreme Court. It can have the case reviewed on the former tribunal on a writ of error or may bring it before the latter tribunal on constitutional grounds.

If the Standard goes into the Supreme Court it will not be as a criminal. Under the law, there is no appeal to the Supreme Court in criminal cases, except where capital crimes are involved.

Section 8 of the Constitution provides that the courts shall not impose cruel or unusual punishment or excessive fines. In the event that the Standard fails to secure a reversal by the Circuit Court of Appeals of the decision of Judge Landis, thus remanding the case to the lower court for retrial, it is expected to take advantage of its rights under the section of the constitution above referred to.

Upon what ground the Standard would base its plea that the fine imposed by Judge Landis is excessive has, of course, not been disclosed by the attorneys of that company. The constitution does not define the term "excessive fine." That is a point to be settled by the judiciary. The suggestion has been made that the fine of $29,240,000 may be excessive, and, in fact, confiscatory, for the reason that the defendant, the Standard Oil Company of Indiana, is capitalized at $1,000,000, and has assets of $10,000,000 representing an investment less than one-half of the amount which the court proposed shall be assessed against it for violation of law.

HAD AN AWFUL TIME.

But Chamberlain's Colic, Cholera and Diarrhoea Remedy Cured Him.

It is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude and I shall always speak a good word for this remedy.—SAM G. GWIN, Concord, Ga. For sale by Gibson & Timberman and W. F. Creighton & Co.

ALEXANDRIA GAZETTE AND VIRGINIA ADVERTISER

TUESDAY EVENING, AUGUST 6, 1907.

THE RUSSIAN philosopher Borsenko has just published an article predicting that the Slavonic races will treble all others in Europe by the year 2,000. He believes that Russia will rule all of Europe by that time, and that it will be supreme in Asia except for the Chinese empire which, he says, will have fallen under Japanese rule. Russia, Japan and America, he adds, will be the only surviving powers. Ninety-three years will have elapsed before this "forecast" can be fulfilled, according to Borsenko; hence this generation need not entertain any anxiety concerning it. There are many "prophets" in the world at present. A European writer says the Bagdad Railway will be the next world question. "There is," he says, "perhaps no other enterprise in sight that focuses so many and such divergent ambitions. It touches Macedonia and all that Macedonia implies on the one hand, and the vast possibilities to the near East on the other. It directly affects British trade in a region where British trade has hitherto predominated, and it must, as time goes on, exercise a profound influence on the relations between Germany, Russia and England. The great diplomatic struggle of the future, now that the far Eastern crisis has been temporarily settled, will centre round the Tigris and Euphrates. Those lands have still an enormous part to play in the world's history. Mesopotamia many become again the granary of the East, and cities more magnificent than they may yet cover the sites of Babylon and Nineveh." A quarter of a century hence, Sydney Brooks ventures to predict, Anatolia and Syria, Mesopotamia and Persia, may be as insistant in their problems and as familiar to the students of international politics as Manchuria and Korea are today.

A DISPATCH from Lincoln, Neb., says that suggestive pictures on the walls of southern saloons are the main causes of the fearful assaults made on southern women by negroes, according to Mrs. Nannie Curtis, of Texas, national organizer of the Woman's Christian Temperance Union. Yesterday in a public address at the Epworth Assembly she said: "The saloons have robbed us white women of our loved ones, of our homes, and now they have robbed us of our clothes and have hung us up on the walls of saloons to inflame the passions of drunken black brutes." The above may also be said of other sections of the country. Such pictures may be playing their parts in inciting bad men at present to the commission of crimes in New York. Besides it must not be forgotten that certain women are in a measure responsible for suggestive pictures when they pose for the same. The following dispatch from Pittsburg, Pa., shows the part certain females are wont to play:

Pittsburg's tabooed picture, "The Bath," by La Touche, was portrayed at the Nixon Theater by a living model here yesterday afternoon and evening, to the delight of hundreds who had never seen the real painting. Scores stood in line in the rain outside the ticket window. The Nixon was filled when the picture was first shown, and the crowd was very enthusiastic. Manager Kirk, of the theater, refused to allow the model to pose in 'the altogether.' Her contention was that the fine points of La Touche's picture can only be brought out by grease paint, and that the fleshings she wore did not have the right effect.

THE STRENUOUS LIFE is said to be killing the men of a Chicago at tremendous rate, while the women of the city are increasing their longevity by the simple life. In the weekly official health bulletin issued Sunday Health Commissioner Evans declares that a few centuries will see Chicago an Adamless Eden. Dr. Evans draws his conclusions from the death rate in Chicago for 20 years, and particularly in the last seven months, when five members of the stronger sex died for every two of the fairer. Dr. Evans makes the startling statement that during the first seven months of 1907 in Chicago about 12,000 men succumbed, as compared to 8,000 women. The cause for this is attributed by the physician to the strenuous life. Contributory causes are the quick lunch, constant exposure and carelessness. "The men," he says, "are living at a rate that is 30 per cent. faster than that of the women. They work harder. They take less care of themselves than of their wives and daughters. They court danger. They dissipate more. They exhibit a carelessness begotten of familiarity with danger." This is not the first time attention has been called to this serious fact. But the world is on a fast pace, and in order to keep up in the march of life many men forge ahead until they drop in the way.

IN THESE days of agitation and unrest mischievious men, to use a common expression, are looking for trouble. The large anti-clerical meetings held at Spezia, Leghorn, Terni, Genoa, Florence, Udine, Palermo and elsewhere are doubtless the work of such. In Rome Mgr. Sanfermo, an intimate friend of Pope Pius, was insulted in the street, and at Naples the well-known astronomer, Father Alfani, was hooted by rowdies. A correspondent of a New York paper has written a column story descriptive of conditions in Rome as viewed through his spectacles. The writer thinks the time is approaching when Pius X will find it necessary to depart from Rome.

From Washington.

[Correspondende of the Alexandria Gazette.]

Washington, Aug. 6.

Officials of the Department of Justice firmly believe that the government will eventually collect the $29,240,000 fine imposed upon the Standard Oil Company by Judge Landis. They admit the possibility of a reversal of the conviction on the ground of error in the trial, although they regard this chance as very remote; but they do not believe that the Supreme Court will consider for a moment the amount of the fine. In other words, if the conviction stands, the fine stands with it. It is expected that the case will reach the United States Supreme Court within a year, and that a final decision may be expected a few months later. "There is nothing illegal about this record-breaking fine," explained a high authority at the Department of Justice today. "From the oil trust's lamentations, one might think Judge Landis was the criminal instead of the Standard. The fact that the Standard Oil Company was a gross offender, and had been found guilty of over 1,400 offenses, was no fault of the government. Neither is there a law in existence, to my knowledge, providing that the court, in imposing a fine, must first ascertain whether the payment would prove burdensome to the prisoner. The trust attorneys have the right to attack the proceedings on a bill of exceptions to the Circuit Court of Appeals, but it is hardly likely that the question of fine will appear in this record. If it did, all the higher court could do would be to ascertain if the sentence had been imposed in conformity with the law. The Standard can get this case into the Supreme Court of the United States on a writ of error. That tribunal cannot go outside the record, however, because the case is a criminal one. It is doubtful if the question of fine will be raised in the Supreme any more than it would be in the Circuit Court of Appeals." The Standard oil has two strings to its bow against the government's one. It can carry the Chicago case to the Circuit Court of Appeals, and temporarily defeat the federal government if that tribunal should reverse the proceedings in the lower court. If it loses out there, it can appeal to the Supreme Court of the United States. The government would not have the writ of appeal from an adverse decision in the Circuit Court of Appeals.

The War Department announces the conviction by court martial at Fort Monroe, of First Lieutenant George A. F. Trumbo, 12th cavalry, for writing the following letter to Mrs. Sims, of Clarksburg, W. Va., mother of Earl Sims, a soldier: "Dear Madam: It gives me great pleasure to inform you that your son, Earl Sims, who is about the most worthless scoundrel I ever saw, is a deserter from the United States army. I sincerely hope to see him behind the bars for at least two years. Hoping this will be a source of condolence to you, I am, &c. The court sentenced him to be reprimanded and confined to his post for two months, which punishment Major General Grant, in reviewing the case, considered entirely inadequate, characterizing the lieutenant's conduct in writing such a letter as "beyond the pale of the most ordinary decency." After reproving the court for its leniency, the general approved the sentence.

The Department of Justice this afternoon gave out a statement revealing the attempt of the powder trust to circumvent the government's suit against the concern. Incidentally the statement involves the recorder at Wilmington, from whose office papers filed by the trust disappeared at a critical time, and who denied to the District Attorney that he had any such papers.

New York Stock Market.

New York, Aug 6.—There was no change in the character of the trading on the stock exchange during the forenoon. There was important liquidation which at times was offset by heavy covering of shorts, but new short lines were continually put out and prices forced to still lower levels. Union Pacific after a rally to 138 3-8 declined to 137, the lowest price so far on this movement and Reading continued its downward movement to 98 before a rally occurred. A feature of the trading in the second hour was the weakness of the industrials.

Signals have been arranged by which the French cruiser Galilee will bombard the native quarters of Casablanca in the event of a renewal of the attacks on Europeans.

The women screamed, so they were released, and their assailants fled in different directions.

There was no resistance to the court's action.

Even after four other policemen came to the rescue with drawn revolvers the crowd followed from the scene of the attack upon the little girl to the court in Stapleton, surrounding the courthouse and vowing to kill the wretch if he was not sent to jail.

The struggle of the Lithographic Artists, Engravers and Designers' League with the National Association of Employing Lithographers, in New York, which began in August, 1906, has been ended as a result of the abandonment of the fight by the union. The trouble had its origin in the posting of open-shop notices by the employing lithographers in most of the larger cities of the country last August, and their requirement that all their employes resign from their union. This the men refused to do, and they were locked out in Boston, Springfield, Providence, New York, Philadelphia, Rochester, Buffalo, Cleveland, Detroit, Chicago, Milwaukee and St. Louis, as well as in a number of smaller cities.

Prof. John R. Ficklen, formerly of Fredericksburg and late of New Orleans, La., died Saturday in a hospital in Chautauqua Lake, N. Y., where he was summering with his family. On his return to this country he was appointed to a chair in Tulaine University, New Orleans.

D. A. Kelly, who was defeated for the House of Delegates on the face of the returns in the democratic primary in Fauquier county last week, and who, together with T. C. Pilcher, who was defeated for the State Senate, filed a protest with the county chairman, asking for a recount, yesterday, further alleges that there is strong evidence of fraud and gross irregularities and adds: "I am willing to accept defeat as a result of an election fairly and honestly conducted, but I cannot and will not wince at fraud."

Only Clifford Garrett, the four-year-old son of G. P. Garrett, Newport News, was drowned in Hampton Roads, off the Jamestown Exposition grounds, Sunday night when the gasoline launch Greyhound was run down and sunk by a New York, Philadelphia and Norfolk car float, in tow of the tug Salisbury. The five other occupants of the launch, three of whom were reported as drowned, had a miraculous escape from death, three of them climbing on board the float which ran down the launch, and the other two being picked up by the excursion steamer Montauk.

Col. George C. Cabell, of Norfolk, is working for an amendment to the Mann act preventing even the social clubs from selling liquors or other intoxicants to their members on Sunday. The colonel says he knows the amending of the law will probably work a hardship on organizations that are operated in a legitimate manner, but feels that it is better that a few institutions should suffer rather than for hundreds of "mushroom" clubs to continue to sell liquor Sundays and every other day in the week not only to members, but to anyone who may come forward with the price of a drink.

The State yesterday afternoon filed a demurrer in the United States Circuit Court in Richmond to the injunction of Judge Pritchard in the 2-cent rate case, and it is expected that Judge Pritchard will be in Richmond at an early date to take such action as will be necessary to forward the case to the Supreme Court as soon as possible, as agreed upon by the State and the railroads. According to Attorney General Anderson, this is only one step in the direction of settling questions of vastly more importance than the mere matter of a rate of 2 cents or 3 cents per mile on the railroads.

HIGHER TAXES IN GEORGIA.

While the people of Atlanta, Ga., are wrought up over the passage of the anti-saloon measure, which will soon become a law, Georgians all over the State are none the less interested and are beginning to figure out how they will stand after January 1st next. One thing is assured, it has been stated, and that is higher state taxes during the next two years, solely on account of the recent prohibition legislation.

Like Atlanta, the State of Georgia gets a revenue in the neighborhood of $300,000 from the liquor industry. In fact so great a benefit has it been to some of the county seats that no taxes have been assessed for the past 10 years. This immunity from taxation was brought about by the establishment of what are known as state dispensaries, and from the income from such sources many of the smaller cities of Georgia have been able to make improvements, despite the fact that they had no tax rate to reckon with.

The most notable record is that of the prosperous city of Dawson, in Terrell county. Here improvements have been instituted which embrace the construction of an up-to-date system of waterworks and an electric-light plant, the erection of a city hall and additional schoolhouses, all out of the earnings of the state dispensaries.

In other cities, such as Rome and Athens, both prosperous towns, the same conditions prevail. The earnings of the dispensaries, which in many cases reach the sum of $60,000 annually, have been sufficient to meet the expenses of these towns, and therefore the citizens of Athens, Rome and Dawson were assessed nothing on their property, no matter how large their holdings were.

After the first of the year these sources of revenue will be a thing of the past. And according to the anti-prohibitionists, the next thing in order is the taxation of property held by persons who have known no tax rate for the past ten years.

Although the majority of the people do not know it, steps are now being taken to increase the general State tax rate. A dragnet will be put out by the tax committee of the legislature to catch every available piece of property.

Under the constitution of the State of Georgia, the State tax rate cannot go higher than five mills. At the present time it is four mills and a fraction. It is boldly claimed, however, that with the tax rate at the highest figure allowed, this will even be insufficient to meet the shortage. Those who claim to know hint that, if the prohibition bill continues in force, an effort will be made to have an amendment to the constitution establishing a much higher tax rate for Georgia.

Today's Telegraphic News.

Casablanca Bombarde.

Tangier, Morocco, Aug. 6.—Open hostilities resulted in the injury of five French officers and six sailors, the bombardment of the villages surrounding Casablanca by the French and Spanish war ships, many casulities among the Moors and a demand that the Moorish commander surrender to the French consul under threat to raze Casablanca, today marked the most serious breach in the troubles there.

The French admiral ordered 150 sailors to go ashore from the cruiser Galilee to protect the French consulate.

The Moorish troops and tribesmen looked upon the landing of the men as invasion and opened fire upon them. Five officers fell at the first volley. Six sailors also had been wounded when the Galilee began the bombardment from the harbor. When the shells began breaking over the town, the Moors quickly fell back and the French sailors were able to take up the wounded and care for them.

The French cruiser Du Chayla quickly joined the Galilee in the bombardment and the Spanish cruiser DonAlvaro De Vazan also joined in sending shells over the town. The bombardment was confined chiefly to the villages surrounding the towns. Many dwellings and small structures of various kinds were shattered and it was impossible to learn the extent of loss of life.

Large reinforcements of tribesmen from the outlying districts were rushed into the city.

Gathering confidence the town battery began firing at the cruiser and immediately the guns from the ships were trained upon the fortification. After two or three shells had been sent among the land guns the Moorish commander signified his desire to mediate.

When communication was established the Moor sought the pardon of the French admiral for firing on the sailors.

This request was peremptorily refused and in such a way as to indicate that heavier toll than an apology was demanded and must be forthcoming.

The Moorish commander was informed that the only way he could prevent the continuation of the bombardment would be to surrender absolutely to the French consul.

The Spanish gunboat then landed sailors to protect the Spanish consulate.

Paris, Aug. 6.—The terms of the note to be sent by France and Spain to the Algeciras government informing them that Spain and France will keep within the terms of the convention, were decided upon today. No other power is expected to take any part in the Moroccan troubles.

Algeria, Aug. 6.—The garrison here has been put in war trim under orders to prepare for a possible notice to proceed to Morocco.

Oran, Algeria, Aug. 6.—The French cruisers Gloire, Jeanne d'Arc, Conde and Gueydon sailed from here for Morocco today with artillery, men, sharpshooters and the foreign legion.

Advices late this afternaon from Casablanca says the native losses in the fighting there number 150 persons killed or wounded by bayonets and 400 struck by shells.

A part of the town was in flames when the message was sent.

Suicide in Yacht Club.

New York, Aug. 6.—Heavy losses in Wall street and despondency from brooding over his suspension a year ago from the Stock Exchange where he had been a member for thirty years, are assigned today as the reasons for the suicide of William S. Alley, who shot himself in a room at the Larchmont Yacht Club last night. Alley died on his way to a hospital.

The piazzas of the club were crowded with members and their wives and daughters at dinner when Alley killed himself. The sound of the revolver created a near-panic among the visitors. Men who rushed to his room found the door locked.

It was forced open and Alley, partly undressed, was lying on the bed with a wound in his right temple. A revolver with one chamber empty was on the floor.

Since his suspension from the exchange Alley had operated largely on the curb market where he had lost heavily of late.

Died from His Injuries.

Dayton, O., Aug. 6.—Abraham Cohen, the victim of Sunday night's assault in which Anna Markowitz was criminally assaulted and strangled to death, died in the hospital today from his injuries. Before his death an attempt was made by the authorities to have him identify Jacob Markowitz, a younger brother of the murdered girl as the man who did the shooting, but Cohen failed to make the identification.

Although the result of the autopsy on the dead girl has been completed the coroner will not make his report for several days. It was stated, however, that the girl had been brutally assaulted before her death by strangulation. The brothers and sister of the murdered girl, who are detained in the county jail pending the result of the coroners investigation were still in jail today, but it is not believed that they can be connected with the murderous assault.

Missing Sailor.

New York, Aug. 6.—On the declaration of six sailors from the battleship Georgia that the disappearance of one of their comrades had been caused because he "knew too much" about the recent turret accident on the warship, Daniel F. Lynch, father of the absent seaman, today appealed to the police to investigate all the circumstances of the young man's disappearance. Saturday evening young Lynch, just returned from shore leave, was ordered to place a red lamp on the ship's side. Half an hour later at roll call he was missing. Some of the sailors refuse to believe he was drowned.

Rescued from Mob.

New York, Aug. 6.—A great panic resulting in the formation of a mob, was caused today when William Aterka, a discharged employe, shot Herman Weissman, a foreman, at the iron works of Philip Dugrovin, Williamsburg. Aterka was chased from the works by the mob as soon as the panic was reduced sufficiently for them to regain their sense. A policeman, who grabbed the fleeing man was felled by the butt of the revolver. The mob had captured its victim when the reserves arrived and rescued him Weissman was shot in the shoulder and Aterka was attended by a surgeon at police headquarters.

Will Enforce the Law.

Montgomery, Aug. 6.—At any cost, according to their determination, today, the State officials will enforce the new State law under which the Southern Railway's right to do business in the State was revoked. It is said that Governor Comer may call a special session of the legislature. Much apprehension is felt in business circles of the State as it is feared that local trains may be discontinued at any time. There is much talk of the governor calling out the State troops for the purpose of enforcing the new law.

Montgomery, Ala., Aug. 6.—A settlement of the trouble between the State and the Southern Railway appears to be in sight. Vice President Russell, of the Mobile and Ohio railroad, representing President Finley, of the Southern, is in conference today with Gov. Comer. It is believed the outcome will be an agreement putting an end to the dispute brought to a crisis by the action of the State authorities in revoking the Southern's charter.

It is understood here Col. Russell was authorized to make overtures in behalf of President Finley whereby the company hopes to re-establish itself on a legal basis in Alabama without a fight in the courts. Just what terms Col. Russell was willing to offer is not known. If today's negotiations fail, however, further serious trouble is expected.

The State authorities are determined to stand by their action in revoking the license while the railroad people will not yield without a hard struggle.

It was rumored that at the conference between Governor Comer and Col. Russell the basis for a test suit to determine the State's powers will be agreed upon. Both sides will then unite in pushing the case to a decision.

Effect on the Stock Market.

New York, Aug. 6.—Declines all through the list were registered on the stock exchange today and were traced directly to the continued reports of renewed activity of government authorities against the great corporations, following the $29,240,000 assessed against the Standard Oil Company.

The belief seemed to be general on the floor that the corporate interests were on the verge of a period of legal and legislative complications far more serious than any experienced in the past.

Union Pacific, usually considered a good criterion by which to judge the market, went down steadily until it had lost 2¼ points, bringing it to 137, the low water mark of the movement. Great Northern preferred went down three points and practically all railroad stocks and industrials showed weakness.

At first heavy buying to cover shorts kept prices fairly well balanced, but this activity decreased. Houses with western connections, carrying speculative business, however, continued to buy.

The Standard's Fine.

New York, Aug. 6.—A Wall street financial news service today included in its report the following regarding the $29,240,000 Standard fine:

"It may be taken as a fact that the action of the court is regarded as of great importance and no little significance. It is freely admitted that this action will not only be followed by similar action along the same line, by federal authorities both against corporations and individuals, but that it will lead to further activity on the part of the ambitious State's authorities. "Those who are watching the whole situation closely believe that for some weeks to come corporate interests will be compelled to pass through one of the most disturbing periods to which they have been submitted since federal and State authorities began their aggressive policy against large agregations of capital."

Assailant Caught.

New York, Aug. 6.—A strangler met his match today in Miss Adelaide Wilderer, a brave trained nurse. She was returning from attending a patient when she passed 106th street and Manhattan avenue. An Italian seized her and, before she realized what had happened, dragged her into a hallway. Then she gave him a struggle until he lost his grip upon her throat and she screamed so loudly that he fled. Though half-blinded by his blows and severely hurt by the struggle, she gave pursuit. At Central Park the police arrested Pietro Dauria, a peddler, whom Miss Wilderer, arriving a moment later, identified as her assailant.

The Hep Sing Long.

Boston, Aug. 6.—Wild rumors that twenty emissaries of the dread Hep Sing Long are on their way here to wipe out the Boston branch have set all Chinatown in a furor. As soon as the police learned of the threatened invasion forty blue coats were hurried to Chinatown and plain clothes men control the streets. The eighth arrest for the murders in Chinatown Friday night was made at Portsmouth, N. H., last night, when Boston officers captured Yee Chung, of New York, said to be a leader of the Hep Sing Long. He will fight extradition.

Lives Imperilled by Fire.

New York, Aug. 6.—More than 250 lives were imperilled today by an incendiary fire in a tenement at 232 east Eighteenth street, and the police assert that Mrs. Matilda Gardner, fifty, started the blaze. James Gilroy, janitor of the building, said he saw the woman enter one of the flats, place a bundle of paper saturated with kerosene on the floor and set it afire. The blaze threatened to destroy the building but Gilroy began work on it in time to save the tenement. The woman was arrested.

Fourth Victim.

Boston, Aug. 6—Lee Kei Nom, 46 years old, died today as the result of injuries sustained last Friday during the riot in Chinatown. Lee makes the fourth victim of the shooting. Dong Buck Liu was placed under arrest today on a charge of murder.

Warning from Commission.

Austin, Tex., Aug. 6.—The State railroad commission has issued a general order to the railroads of Texas, their officers and employes that despite adverse rulings in certain courts of the State the penal provisions of the anti-pass law will be enforced against all persons giving or receiving free transportation except those expressly exempted. The order further declares that the prosecution will be started in every county through which the offending road runs.

A Valuable Lesson.

"Six years ago I learned a valuable lesson," writes John Pleasant, of Magnolia, Ind. "I then began taking Dr. King's New Life Pills, and the longer I take them the better I find them." They please everybody. Guaranteey at E. S. Leadbeater & Sons, druggists. 25c.

Attacks Standard.

Cleveland, O., Aug. 6.—The National Petroleum Association, the association of independent oil men, have directed four new attacks against the Standard Oil Company and the railroads. This is what they will try to accomplish:

Reduction of 20 per cent. in freight rates on petroleum by all railroads east of the Mississippi and north of the Ohio river.

Reduction of forty per cent. in freight rates by railroads in the Chicago-Omaha-St. Paul territory.

A reduction of more than fifty per cent. in freight rates under the jurisdiction of the Nebraska railroad commission. Enactment by the Georgia legislature of an anti-discrimination law similar to that of Kansas and Iowa.

The first two pleas will be heard, if the application of the independents for a hearing is granted by the Interstate Commerce Commission. The others will be fought out in the States affected.

Killed Husband with Pitchfork.

Stroudsburg, Pa., August 6.—The killing of John Newman, aged 75 years, by his wife, aged 74 years, has created a decided sensation in Pike county. John Newman and his aged spouse engaged in a quarrel at their home in Blooming Grove township. Newman is alleged as a result of the altercation, became so much enraged that he seized a butcher-knife and attacked his wife. To defend herself she grabbed a hammer and struck her husband a hard blow on the head, which stunned and felled him to the floor. Then, in a fit of frenzy or fear of her husband's wrath, should he revive and renew the attack, the woman, it is alleged, procured a pitchfork and stabbed the prostrate man in the stomach until life was extinct. The body was carried out to a field and hidden behind a stone row, where it was discovered by mere accident. Mrs. Newman and her two sons and grandson are in custody.

Arkansas to Appeal.

Little Rock, Ark., Aug. 6.—Arkansas will appeal at once from United States Circuit Judge Vandeventer's decision at St. Paul yesterday, temporarily restraining the State from annulling the Chicago, Rock Island and Pacific railroad's charter within its borders for violation of the law prohibiting the transfers of suits against it by Arkansas citizens from the State to the federal courts. The case is similar to that of the issue in Alabama.

Arkansas, however, was unfortunate in meeting with delay through the federal court's action before a move could be made by the attorney general to invalidate the railroad's charter. The State officials will do their utmost to carry the case to the higher courts and secure a reversal of Judge Vandeventer's decision on the temporary order without awaiting the final hearing.

Conditions in Belfast.

Belfast, Ireland, Aug. 6.—Negotiations to settle the carters' strike have failed, and it is feared this will mean a recurrence of rioting and disorders on even a worse scale than prevailed a week ago. The carters have declared they will fight to a finish, and some of the men have been rendered desperate by the failure to reach an agreement. In addition the coal men are again causing trouble. A fresh dispute has arisen between the employes and two important firms which may result in a strike of all coal men.

Prohibition Signed.

Atlanta, Ga., Aug. 6.—Governor Hoke Smith today in the presence of a large crowd signed the bill which makes Georgia a prohibition State. The success of the measure is in a great degree due to the women of Georgia who fought for it from first to last. It was a double cause—temperance and self protection. It has been shown that a great majority of attacks upon women by negroes, such as caused the great race war here, are made by blacks under the influence of liquor. "Save our women!" was one slogan.

Railroad Accident.

Pittsburg, Pa., Aug. 6—As the result of a wreck on the Conemaugh and Buffalo and Allegheny division of the Pennsylvania Railroad between Kelly station and Ford City, shortly before noon today, several persons were killed and at least 18 injured. The train wrecked was No. 76, due here at 12:35 this afternoon. The accident was caused by a crippled car of a freight train blocking the track.

Pittsburg, Pa., Aug. 6.—Reliable reports from Kittanning say there are 14 dead.

THE LABOR SITUATION.

The labor situation in Washington did not change yesterday. Although the leaders of all the national and international labor unions have ordered that the men shall go on a strike, and that the fight against the "open shop" shall be to the death, those men who were still at work yesterday were premitted to remain at work, and the labor leaders were again in conference all day. It is believed that they are arranging a plan of campaign and are careful to perfect every detail before the fight is actually begun, for they realize that the employers are united and as determined as are the unions.

The employers yesterday still maintained their attitude of indifference toward the further action of the labor leaders. They declare that they are receiving from Baltimore and from many of the smaller towns in Maryland large numbers of skilled workmen, who are attracted to Washington by the extremely liberal wages that are the rule in that city.

It is stated that many of the employers are availing themselves of colored labor. There are in Washington many colored bricklayers and other mechanics, who learned their trade in southern cities, but have gradually worked their way north, attracted by the high wages paid there.

The employers insist that they will not be seriously crippled, as workmen are coming to Washington from all over the country, and that they are determined to fight for the "open shop," once and for all. The labor leaders are equally determined to fight for the closed shop.

CIVIL SERVICE.

As previously stated in the Gazette, the Civil Service Commission will maintain a permanent office in this city which will be located on the second floor of the postoffice building in the rooms which were formerly occupied as an internal revenue office. This morning seventy-five handsome desks were placed in position, and the necessary chairs will arrive within the next few days. The first examination which will occur in the new offices will be for the internal revenue service, which will be held September 4. It is stated that examinations will be held at this office on an average of once every month. Owing to the overcrowded condition existing in Washington the commission decided to establish a branch office here, and most of the examinations which will occur here would otherwise have been held in Washington.

The local board of civil service examiners held an examination this morning at the custom house for the purpose of securing eligibles for the railway mail service. Only two applicants presented themselves for examination, one white and one colored. The examination was conducted by Mr. N. L. Williamson, secretary of the local board of examiners.

WILL ENTERTAIN VISITORS.

At a called meeting at Fitzgerald Council, No. 459, Knights of Columbus, held last evening at the Young Men's Sodality Lyceum Hall, plans were made for entertaining the visiting members of that order attending the National Convention which convened today at Norfolk. It is expected that many of the knights will on their return for home visit Alexandria, and for this reason the members of the local council appointed a committee which will escort the visitors who stop in this city to the various points of historical interest. It is expected that the majority of those who stop over here will arrive Saturday and Sunday next. The headquarters of the committee will be at the Young Men's Sodality Lyceum Hall.

CONFEDERATE VETERANS.

R. E. Lee Camp, Confederate Veterans, held their regular meeting last night, Lieutenant Commander W. W. Sherwood presiding.

The sessions of the Grand Camp on the 16th and 17th of October will be held in the Armory Hall, Norfolk, and on the 18th of October in the Convention Hall at the Jamestown Exposition.

FUNERAL.

The funeral of the late John Standiford, who died suddenly Sunday morning, will be held this afternoon at 4:30 o'clock from his residence, 1010 King street. Rev. Charles D. Bulla, of the M. E. Church, South, will conduct the services, and the interment will be in Union cemetery. The funeral will be attended by Osceola Tribe of Red Men. The following were the pallbearers: Philip Standiford, John Standiford, John Waddey, Herman Waddey, Maj. James E. King and Capt. William M. King, jr., nephews of the deceased.

DISABLED STEAMER.

The steamer Norfolk, of the Norfolk and Washington Steamboat Company, is at Newport News undergoing minor repairs to her steering gear. She is expected to arrive here tomorrow evening. The steamer Newport News, which has been running on the day route, has taken the Norfolk's place on the night route, and the steamer New York, belonging to the New York, Philadephia and Norfolk Company, has taken the place of the Newport News. She arrived up this morning and later left here for the Jamestown Exposition.

THE DOG WAGON.

The dog wagon failed to make its appearance on the street today, as had been expected. Chief Goods announced this morning that the delay was caused because a suitable place has not yet been provided for keeping the canines after they are captured. It was also stated this morning that arrangements would in all probability be made today for the erection of a shed of some character in the rear of the city jail where the dogs will be incarcerated pending their fate.

DELINQUENT BOARDER.

A lady appeared at police headquarters this morning for the purpose of seeing if some action could not be taken against a boarder, said to be a railroad man, who she alleged had defrauded her out of a board bill amounting to $34. According to her statement, the case is now in the hands of a magistrate, and she was informed that the best plan of procedure would be to let the magistrate dispose of the case.

PROBABLE ENCOUNTER.

It is reported that two young men appeared at a livery stable about 5 o'clock this morning with their faces covered with blood and there was every indication that they had met with an encounter in which they apparently got the worst of it. After bathing their injuries they left for their respective homes. Both of the men, it is stated, were very reticent concerning how they were injured.

FREDERICKSBURG EXCURSIONISTS.

A special train of seven cars landed 605 Fredericksburg excursionists at Fayette street about 10:30 o'clock this morning. The party was on their way to Luna Park where they will spend the remainder of the day. The electric railway company had a number of extra trains on King street for the transportation of the excursionists. They will return to their home late this evening.

A called meeting of the City School Board will be held tomorrow night.

ATTEMPTED ASSAULT.

Mrs. Susie M. Beach, twenty-two years of age, wife of Mr. Reginald Beach, near Walker's Chapel, Alexandria county, was the victim of an attempted assault about 7 o'clock this morning as she was proceeding along a densely covered path which led to the home of Mrs. Mary Anderson, which is about a mile from her home. According to her statement, she was attacked by Frank Hitchcock, about thirty-five years of age, who, when he saw her approaching obstructed her path and when she arrived where he was she made an unsuccessful effort to elude him. Hitchcock then grabbed the frantic woman and threw her to the ground and made a bold effort to assault her.

Mrs. Beach cried for help, and a few minutes afterward Hitchcock released her, not until, however, he made her promise that she would not reveal what had occurred under the penalty of being killed.

Mrs. Beach afterward proceeded to the home of Mrs. Anderson, and upon reaching there she collapsed. Later she told her story and an alarm was at once sent out.

Sheriff Palmer expects to have Hitchcock in custody by nightfall.

Commonwealth's Attorney Crandall Mackey telephoned Judge Barley this afternoon that he would like him to be in readiness to call a special grand jury following Hitchcock's capture so that there will be no delay in the matter.

Mrs. Beach says she was on speaking terms with Hitchcock and nothing more. She bears an excellent reputation in the county.

Hitchcock is said to be employed at the Potomac stone quarries in the county.

Passing of Zion City.

Chicago, Aug. 6.—Zion City, once the home of a world-wide creed, is no more. Overseer Wilbur Glenn Voliva, striped of every vestige of power by the United States District Court, announced today that he was ready to let the battered hulk sink into oblivion. With the sale of the lace factory to a Chicago merchant, an ignoble end comes to the Christian Catholic Church in Zion, founded by John Alexander Dowie. Voliva, with a handful of followers, will migrate to Nevada and will attempt to propagate a faith based partly on the teachings of Dowie and partly on his own beliefs.

The sinking fund commission of New York authorized yesterday the purchase of the land needed for the carrying out of Dock Commissioner Bensel's plan for the development of the south Brooklyn water front. The scheme calls for the building of a series of 1,200-foot docks between Twenty-eighth and Sixty-first streets. The cost of the land is estimated at $6,000,000, while the entire cost of the new docks will be about $29,000,000.

MUNICIPAL LUNACY.

By JOHN KENDRICK BANGS.

Has anybody yet thought of the desirability of municipal ownership of the barber shops? If not it is respectfully suggested that the matter be looked into, for under private control it is undeniable that many abuses have grown up. No misplaced respect for alleged private rights should be permitted to take the lather out of the mouths of the public.

The Brooklyn Eagle says that "you simply can't marry business and politics." Ah, but you can. Misalliances are always possible. The real trouble will come when you try to divorce them, even for cause.

Only a fool would suggest managing gas companies, street car companies and so on regardless of cost.—Hearst's New York Evening Journal.

Now, William, stop calling yourself names. Leave that to your enemies.

One thing is very certain. If capitalists refuse to take the municipal bonds that are being offered on the markets, it won't take more than fifteen minutes for an alert common council to pass an ordinance requiring them to take them. Better be warned in time, ye money sharks. When that ordinance is passed, who knows but that one of its provisions will set the price of a hundred dollar bond at $125?

Too much credit has ruined many a man. Wherefore the city that cannot sell its mortgages for over 83½ is just that much further from ruin as 83½ is from par. Q. E. D.

There seems to be a general suspicion in New York city that the more flourishing of its pool rooms and other gambling institutions are controlled by a committee of municipal officials acting ex officio. This is one of the few varieties of municipal control which can be said to realize enormous profits.

Northfield, Vt., before starting in upon municipal ownership owed $2,082. At the close of the experiment it owed $47,319, a nice little profit of $45,237.

Opera Note of the Future.—Now that New York city has assumed charge of the Metropolitan Opera House and opera has been thoroughly municipalized the music lovers of the city are looking forward with much curiosity to what promises to be an interesting season. The appointment of Mr. Fassett, the well known plumber, to its management by the common council will infuse new spirit into the institution, though there are still timid souls who doubt whether the artists he has engaged, notably Mr. O'Brien, the livery stable keeper, and Miss Maggie Dugan of Lacey's ribbon counter, to sing Romeo and Juliet are vocally equal to the roles assigned them. Those who have heard Miss Dugan summon a cash boy are perfectly familiar with the wonderful quality of her voice, especially in its higher altitudes, and her enunciation of the word "cash" is bell-like in the clarity of its tone. Mr. O'Brien, however, is more of an experiment; but, while we must confess we have only heard him address his horses in the past, there is no denying that there is a superb quality to the notes of his middle register. Signor Cospetto di Napoli, the popular dealer in confetti in Mulberry street, who will lead the orchestra on Italian nights, comes of a musical family, his parents having toured the country with a barrel organ for many prosperous seasons.

"The People Must Foot the Bills."

A city of some 40,000 inhabitants not long ago decided to change its street lighting from gas to electric and proposed building a municipal plant. The local electric company offered to pay $500 toward the expense of getting an estimate by a first class expert, with the proviso that it would supply lights at a substantial reduction from the expert's estimate of what it would cost the city to furnish its own lights. The offer was rejected, one member of the council voicing the general sentiment of that body in these words:

"It doesn't make any difference what the cost will be, the people want the plant, and the people will have to foot the bills."

Which of the parties to this offer was working for the best interests of the city? When you answer don't blink the fact that the self interest of the company that wanted the contract was fully balanced by the shortsighted self interest of the councilmen who desired re-election.

For an Impaired Appetite.

To improve the appetite and strengthen the digestion try a few doses of Chamberlain's Stomach and Liver Tablets. Mr. J. H. Seitz, of Detroit, Mich., says: "They restored my appetite when impaired, relieved me of a bloated feeling and caused a pleasant and satisfactory movement of the bowels." Price, 25 cents. Samples free at Gibson & Timberman's and W. F. Creighton & Co's.

Neighbors Got Fooled.

"I was literally coughing myself to death, and had become too weak to leave my bed; and neighbors predicted that I would never leave it alive; but they got fooled, for thanks be to God, I was induced to try Dr. King's New Discovery. It took just four one dollar bottles to completely cure the cough and restore me to good sound health," writes Mrs. Eva Uncapher, of Grovertown, Stark Co., Ind This King of cough and cold cures, and healer of throat and lungs, is guaranteed by E.
